2-3 years of experience(unofficial) in Cybersecurity & Informatics fields. Playing CTF challenges on Hackthebox researching online and testing my Knowledge on the field. Participate in Ionian University CTF Team & Admin, recruiting, management of CTF Team.

Experiences

Contestant - CTF Member

January 20, 2022 - January 23, 2022

Real World CTF

The Real Wolrd CTF was an insane experience with a lot of challenges(web,pwd,rev and some combined) I finished top 51th placement in the scoreboard and won the digital souvenirs(nft) for each challenge. For me it was the first time that i participated in Real World CTF but everything went very well, we did better than expected and the position we finished was very good compared to others.

- Solve the skynet web challenge

Contestant - CTF Member

February 05, 2022 - February 07, 2022

Dice CTF

The Dice CTF was an experience like Real World CTF with very hard web challenges 0days etc. this CTF was a good opportunity to lean some nodejs because the challenges implemented in nodejs. I solve one web challenge nameed knock-knock.

- Solve knock-knock web challenge

Projects

Here you will find some of my projects that have been implemented in the course of my career.

MyLib Project - Participate in MyLib Project in developer role. MyLib Project is an online library management. Many schools participate in this project with their own domains. This project was developed by a professor named Triptshs Vasileios and my classmates.

Personal Website with projects - On this site you will find various projects that I have published on the subject of security that contains writeups for hackthebox machines, CTF, hackthebox web challenges.

Skills & Proficiency

Python(Scripting)

Exploit Dev

Networking

Web penetration testing

Active Directory

Linux Privilege Escalation

Windows Privilege Escalation

Network Enumeration

Foothold
